Kairali

health through ayurveda | since 1908

Brand Manual

2026 EDITION

01 · INTRODUCTION

One brand, carried carefully forward

Since 1908, Kairali has practised one thing: health through ayurveda. This manual protects the identity that carries that promise — across our hospital-retreat, products, centres and medicines — and extends it, for the first time, into a complete digital design system.

A unified and consistent use of these guidelines is one of the key ways we visibly strengthen the equity of our brand. Please take the time to read and apply them.

What changed in the 2026 edition

Forest green leads action. Deep green #006038 becomes the interactive color; leaf green remains the identity color.

Red & indigo turn semantic. The tertiary colors now mean error and information — nothing else.

Type is consolidated. Kurale + Asap + Lato serve the master brand; sub-brand faces are mapped to licensed-free equivalents.

Full color ramps. Each 2017 anchor now carries a 10-step digital ramp with accessibility guidance.

A digital foundation. Spacing, radii, shadows, motion and a full component library now ship with the brand.

Voice is written down. The heritage register we have always spoken in is now codified.

Rev. 2 — Villa Raag joins the family. The group's coastal yoga sanctuary on Agonda Beach is recorded as the fifth door, with its endorsement arrangements and type map. Chapters 04, 06 and 11.

02 · THE LOGO

The mortar, the pestle, the leaves

Three elements, never altered: the icon (leaf and mortar-pestle), the Kairali lettering (Freefrm721 BT — never re-typeset; always placed as artwork), and the tagline set in Kurale.

Clear space

Keep a margin equal to the width of the K around every side of the logo. Nothing enters it.

Minimum size

Print: 2.5 cm with tagline, 1.5 cm without. Screen: 72 px full lockup, 40 px icon alone.

On photography

Place on calm image areas, or set the logo on a primary-color panel at reduced opacity.

Never

Recreate the logo from this manual · Switch or restyle its colors · Stretch, distort or rotate it (only 0° and 90°) · Alter any of its fonts · Rearrange its elements · Stray from the approved palette

03 · COLOR

Grown from the logo, tuned for screens

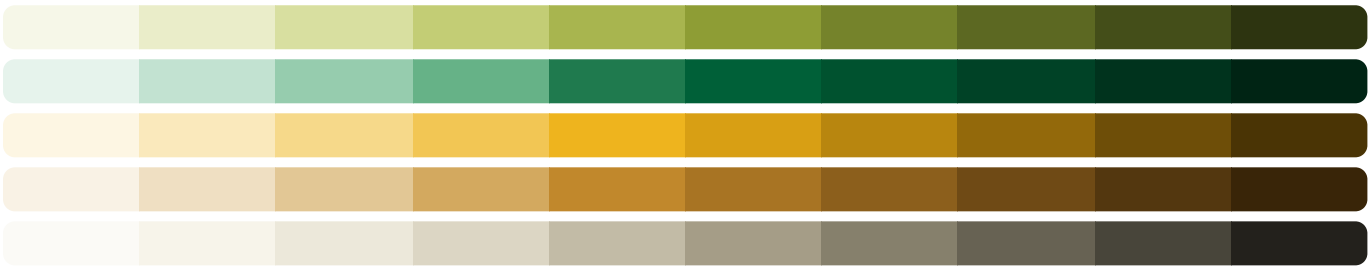

The 2017 anchors are unchanged. Around each, a ten-step ramp now supports digital product work; the values below remain the reference for print.

Leaf
#8E9D35 · PMS 7495
C45 M20 Y100 K10
Identity, focus, secondary

Forest
#006038 · PMS 349
C90 M36 Y92 K32
Actions, links, headers

Marigold
#EEB41E · PMS 7409
C6 M30 Y100 K0
Accent only, never body text

Bronze
#C1882C · PMS 7510
C23 M47 Y100 K4
Taglines, overlines

Leaf · Forest · Marigold · Bronze · Warm neutrals — steps 50→900. Anchors sit at 500 (Leaf, Forest) and 400 (Marigold, Bronze).

Proportions

Ivory and white carry the composition. Forest works; leaf identifies; marigold punctuates — one accent moment per view.

Heritage red & indigo

#BE202E now means error; **#26265F** means information. They no longer appear decoratively.

04 · TYPOGRAPHY

Three faces, one voice

Kurale — the tagline's face — speaks for the brand in display sizes, always Regular, never bolded. Asap does the everyday work. Lato supports with captions, overlines and numerals. Freefrm721 BT remains reserved for logo artwork alone.

Kurale 400
display · h1–h3

Health through ayurveda

Asap 400–700
body · UI · h4+

Our treatments follow protocols refined over four generations.
Semibold for labels. *Italic for botanical names.*

Lato 300–700
captions · data

AYURVEDIC HEALING VILLAGE · PALAKKAD
1908 — 2026

Sub-brand display voices

Ayurvedic Centres
Yeseva One + Open Sans — as specified in 2017.

Healing Village
Gelasio (for Gandhi Serif) + Roboto.

kair range
Quicksand — as specified in 2017.

VILLA RAAG
Julius Sans One + Prata + Source Serif 4 (for Vonca, Cabrito Didone, Miller).

Packaging-range faces without free licences (Orgreave, Olivier, SansSerifFLF, Avenir, Helvetica Neue) keep their printed use where licensed; digital work substitutes the mapped Google faces listed in the design-system tokens.

Warm, human, real

Professional photography only. Three sanctioned treatments: natural warm color for treatments and places; black & white for portraits and editorial; and the heritage marigold overlay (multiply, reduced opacity) when an image plays a supporting role.

Natural color — treatments, facility, herbs

Black & white — portraits, editorial

Marigold overlay — supporting backgrounds

Paper and weave textures ground print and hero moments — always subtle. The heritage engraving marks anniversary and provenance storytelling.

One family, five doors

Four businesses share the icon and lettering; only the Kurale descriptor changes — bronze on light grounds, marigold on dark. The fifth, Villa Raag, carries its own mark under the group's endorsement: the family's first endorsed brand.

Kairali

Ayurvedic Group

kairali.com — the parent brand

Kairali

Ayurvedic Products

kairaliproducts.com — oils, teas, medicines

Kairali

Ayurvedic Centre

kairalicentres.com — 18 centres, 9 countries

Kairali

The Ayurvedic Healing Village

NABH-accredited hospital-retreat — Palakkad, Kerala

KTAHV always reads clinical and physician-led — never as leisure. See chapter 11.

VILLA RAAG

YOGA SANCTUARY . AGONDA BEACH

A KAIRALI AYURVEDIC GROUP BRAND

Villa Raag — the coastal sanctuary

villaraag.com — six rooms and one-on-one yoga practice on Agonda Beach, South Goa. The group's leisure register: it never borrows KTAHV's clinical language, and its own manual governs its marks, colours and voice. Endorsement arrangements: its chapter 07.

07 · DIGITAL FOUNDATIONS

New in 2026: the interface layer

The brand now ships as a coded design system: tokens, webfonts and fifteen interface components. The rules are simple — soft corners, pill actions, warm shadows, calm motion.

Actions

Book a consultation

View treatments

Pill radius · Asap semibold · hover deepens one ramp step — never lifts.

Surfaces

SIGNATURE TREATMENT

Shirodhara

White cards on ivory · 16 px radius · warm-tinted shadow + hairline border.

Rhythm

4 px spacing base · controls 32/40/48 · radii 6/10/16/24 + pill · content measures 720 px, layouts 1120 px.

Motion & focus

Gentle ease-out fades, 150–400 ms, nothing bounces · leaf-green focus ring on every control.

Components: Button, IconButton, Input, Select, Checkbox, Radio, Switch, Card, Badge, Tag, Tabs, Dialog, Toast, Tooltip, LogoLockup — live specimens in the design-system library.

The brand on every screen

Websites, apps, social, email, video and slides all draw from the same tokens. These are the channel rules.

Favicon & app icons

The icon alone, centred at 70% of the tile, on forest #004226 or ivory #F7F4EA — never the full lockup. Export 16 / 32 / 180 / 512 px. No added effects, borders or gradients.

Social media

Avatar: icon on white or ivory circle. Posts: 1:1 and 4:5; stories 9:16. Logo sits in a corner with full clear space, or closes the post as an end frame. One marigold accent per post; photography follows chapter 05. Sub-brand accounts use their own descriptor lockup.

Websites & apps

12-column grid, 1120 px container, 720 px prose measure · header 64 px on ivory with horizontal lockup at 34–40 px · footers on forest-700 or ink with inverted wordmark · chapter 07 components and chapter 10 accessibility rules apply to every screen · KTAHV surfaces additionally follow the clinical register (chapter 11).

Email

Single 600 px column on white · lockup at 44 px height in the header · system fallbacks: Georgia for Kurale, Trebuchet MS for Asap · forest links, pill buttons as bulletproof VML/table buttons · signatures: name in Asap semibold, role + contacts in Lato, logo 36 px, no banners.

Motion & video

Logo enters by fade with a settle from 102% to 100%, 400 ms ease-out — never spins, bounces or draws on · lower thirds: forest bar, name in Kurale, role in Asap · captions in Asap ≥ 28 px on 1080p · end card: ivory, centred lockup, tagline · sound and pacing stay calm.

Presentations & share images

16:9 slides: titles in Kurale ≥ 36 px, body in Asap ≥ 24 px, ivory or white grounds, one forest section divider per chapter, icon watermark at ≤ 8% opacity · link/OG images: 1200 × 630, lockup + one Kurale line on ivory or a chapter-05 photograph.

Dark surfaces. Forest-700/800 or ink only. Wordmark inverts to white; descriptors and accents use marigold-300; body text is ivory at 90%. Leaf green is never used for text on dark grounds.

09 · APPLICATIONS & STATIONERY

The brand in hand

Stationery specifications carry over unchanged from 2017. Only personal details change on visiting cards — the layout, logo and materials never do.

Item	Stock	Weight	Size
Visiting card — senior	Cordenons Sovereign Wool Ivory	250 gsm	9 × 5.5 cm
Visiting card — executive	Laid Natural	250 gsm	9 × 5.5 cm
Letterhead	Cordenons Natural Evolution Ivory	120 gsm	A4 · 21 × 29.7 cm
Envelope	Cordenons Natural Evolution Ivory	145 gsm	open 25.6 × 24 · closed 22 × 10.8 cm
Basic paper	Deo Matte	300 gsm	—

Text on all stationery is set in Asap. Card backs list the group's businesses in the standard arrangement — now five, ending with Villa Raag.

Sanctioned logo applications

Spot UV · blind embossing · wooden embossing · gold foiling · laser cutting · frosted vinyl (etched-glass effect) · 3D signage on forest green or dark wood · jute and fabric printing · ceramic transfer.

Single-color renderings use forest green, ink, or blind/foil finishes — never partial recolorings.

Partner & supplier logos

Two sanctioned arrangements: horizontal (Kairali left, hairline divider, partner right) and vertical (Kairali above). The partner mark never exceeds the visual weight of the Kairali logo, and both keep the full K-width clear space.

Compliant by default

Digital work targets WCAG 2.2 AA. Print work uses the PMS spot inks for anchors and the CMYK builds in chapter 03.

Color on white	Contrast	WCAG 2.2	Permitted use
Forest 500	7.7 : 1	AA + AAA	Body text, actions, links — unrestricted
Ink on ivory	15.6 : 1	AA + AAA	Primary text — unrestricted
Leaf 500	3.0 : 1	Large text / UI	Headlines ≥ 24 px, icons, focus rings; body text uses Leaf 700
Bronze 400	3.1 : 1	Large text / UI	Overlines ≥ 14 px bold, taglines; body uses Bronze 600
Marigold 400	1.9 : 1	Decorative	Never text on white; ink text on marigold passes (8.3 : 1)

Digital standards

Touch targets ≥ 44 px · visible leaf-green focus on every control · honour `prefers-reduced-motion` (fades become instant) · form fields always labelled · icons never carry meaning alone.

Print production

Anchors print as PMS spot inks (7495 · 349 · 7409 · 7510) or the CMYK builds in chapter 03 · ramp steps are screen-first; convert to CMYK per job · 3 mm bleed on all trimmed pieces · logo minimums: 2.5 cm / 1.5 cm.

A century speaks calmly

Kairali speaks as a family with four generations of practice — warm, precise, unhurried. We say "our" and address "you". We never shout.

We say

"Treatment", not "service" · "Since 1908" — often · Title Case for headings, sentence case for body · botanical names in italic · the tagline always lowercase

We never

Use emoji · exclaim in headings · promise cures · use spa-cliché superlatives · sound clinical or transactional

The Healing Village register (KTAHV) COMPLIANCE RULE

KTAHV is an NABH-accredited Ayurvedic medical facility — a hospital-retreat. Its copy reads clinical and physician-led, never as leisure: **patient, physician, treatment, programme, Panchakarma, consultation**. Never spa, resort, holiday, getaway, or escape. No claims of cure — name the conditions addressed and the programmes offered. Specificity over superlatives: years, credentials, named conditions, real outcomes. Banned filler everywhere: bespoke, curated, discerning, unparalleled, nestled, indulge, pamper, exquisite, world-class, unique.

The coastal register (Villa Raag)

The group's leisure voice — warm, sensory, unhurried. Retreat and sanctuary are sanctioned there; KTAHV's clinical vocabulary is not, and no outcomes are promised. The banned-filler list above applies unchanged. Full register: the Villa Raag brand manual, chapter 08.

"Health through ayurveda — a promise kept daily since 1908."

KAIRALI AYURVEDIC GROUP
