

VILLA RĀAG

YOGA SANCTUARY . AGONDA BEACH

Brand Manual

2026 EDITION

A KAIRALI AYURVEDIC GROUP BRAND · ALIGNED TO THE GROUP'S 2026 GUIDELINES · SUPERSEDES THE LAUNCH SHEET

The group's coastal note

Villa Raag is the Kairali Ayurvedic Group's yoga sanctuary on Agonda Beach, South Goa — six rooms, one-on-one practice, and the sea. It stands apart from the group's clinical work: where the Healing Village treats, Villa Raag restores. This manual extends the group's 2026 guidelines to the sanctuary so both identities read as one family, carefully kept.

> On the quiet sands of Agonda Beach, Villa Raag keeps six rooms, a heated saltwater pool and the sea's own rhythm — a sanctuary where every practice is one-on-one and the day moves at the tide's pace.
>
> THE BRAND STATEMENT · CHAPTER 08 GOVERNS ITS REGISTER

What the 2026 edition does

Aligned to the group

Chapters, semantics and production rules now mirror the Kairali 2026 manual, so agencies work from one system.

Placed in the family

Villa Raag becomes the group's fifth door — its leisure register, beside the Healing Village's clinical one. Chapter 07.

Type mapped for daily work

Vonca, Cabrito Didone and Miller now carry licence-free equivalents, as the group did for its sub-brands. Chapter 05.

Voice written down

The coastal register is codified, and the group's banned-filler list now applies to every Villa Raag sentence. Chapter 08.

Set once, never re-typeset

Two elements, always placed as artwork: the Vonca capitals with their macron over the double A, and the descriptor line — YOGA SANCTUARY . AGONDA BEACH. Three colourways only.

INK · DEFAULT ON LIGHT

AGONDA GOLD · BLUSH GROUNDS

WHITE · FOREST & GOLD GROUNDS

Clear space

Keep a margin equal to the height of the V on every side. Nothing enters it.

Minimum size

Print: 45 mm wide with the descriptor, 30 mm without. Screen: 220 px with, 140 px without. Below these, use the emblem instead.

Without the descriptor

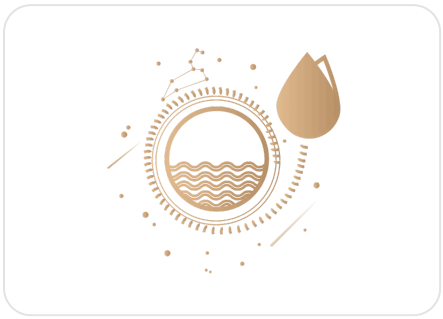

Sanctioned once the full lockup has appeared, and at small sizes.

Never

Re-typeset or re-space it · recolour outside ink, gold and white · stretch, distort or rotate it (0° and 90° only) · add shadows or effects · set it on busy photography — use a colour panel, as the group does · pair it with the emblem at equal weight; one always leads.

The tide, the sun, the lotus

The emblem gathers the sanctuary into one mark — the tide held in the sun's ring, a lotus bud, and the night's constellation. It supports the wordmark; it never replaces it where the name appears for the first time.

AGONDA GOLD · LIGHT GROUNDS

BLUSH COCONUT · GOLD GROUNDS

WHITE · FOREST GROUNDS

The roundels

The lockup set inside a blush or Agonda Gold circle — for social avatars, wax seals, stickers and spine marks. The circle keeps the lockup's full clear space; nothing else enters it. Blush roundel on light grounds, gold on dark or photographic ones.

Sizes & space

Minimum 18 mm in print, 64 px on screen; roundels 24 mm / 80 px. Clear space equals a quarter of the emblem's width on every side — the constellation and stars count as part of the mark.

Never

Redraw or crop it · separate the lotus from the ring · recolour outside the three colourways · rotate it · use it as a repeating pattern at full opacity (watermarks sit at ≤ 8%, as in the group's slides).

04 · COLOUR

Warmth from the shoreline

Four anchors, unchanged from launch. The values below are the print reference; digital ramps follow the group's ten-step method in the shared design system.

#FFEDE0

Blush Coconut
C0 M7 Y12 K0
Primary · grounds, interiors, roundels

#D9B98E

South Goa Tan
C0 M15 Y35 K15
Primary · panels, borders, textures

#DEBC91 → #B7916B

Agonda Gold
C0 M18 Y38 K22 (mid) · foil at press
Secondary · marks, accents, overlines

#324544

Canacona Forest
C28 M0 Y1 K73
Secondary · text, actions, dark surfaces

BLUSH 40 · WHITE 30 · TAN 15 · GOLD 10 · FOREST 5 — ONE GOLD MOMENT PER VIEW

Text & the gradient

Forest carries text. Gold text on light grounds uses the darkened step **Gold 600 #8F6D49**; the gradient itself is reserved for artwork, roundels and foil — never for type or thin rules.

Semantics, inherited

Digital surfaces borrow the group's semantic pair: **#BE202E** means error, **#26265F** means information. Neither appears decoratively at Villa Raag.

Three faces, one calm page

Vonca speaks in capitals, Cabrito Didone in display sizes, Miller in the running text. As the group did for its sub-brands, each licensed face now carries a Google-face equivalent for digital and unlicensed work — this manual is set in them.

AGONDA BEACH

Capitals only, tracked wide. Overlines, descriptors, small labels — never body text.

Vonca
Display capitals · logo-adjacent
Maps to **Julius Sans One**

Mornings keep the tide's time

Headlines, pull quotes, menus and room names. Regular only, never bolded — like Kurale at the group.

Cabrito Didone
Display serif · h1–h3
Maps to **Prata**

Every practice at Villa Raag is one-on-one — Hatha and Vinyasa on the sand, restorative sessions at the pavilion, breathwork as the light goes. *Semibold for labels, italic for programme names.*

Miller Family
Text serif · body, captions, data
Maps to **Source Serif 4**, 300–700

The working hierarchy

OVERLINE · VONCA 9–11

Headline · Cabrito Didone

Body · Miller 10–12 pt, leading 1.6.

Caption · Miller 8–9 pt, or Vonca caps for data lines

Licences

The licensed faces keep their printed use where installed. Digital work, partner decks and unlicensed desks substitute the mapped Google faces — free, embeddable, and recorded in the group's design-system tokens. The wordmark is never affected: it is artwork, not type.

Coastal light, unstaged

Professional photography only, in the place's own light. People appear in real practice, not posed; rooms are shot as they are kept. Warm natural colour is the default treatment.

Practice — beach or pavilion

or browse files

PRACTICE · NATURAL COLOUR

The place — pool, sea, palms

or browse files

THE PLACE · GOLDEN HOUR

Quiet detail — rooms, textures

or browse files

DETAIL · ROOMS & TEXTURES

Natural warm colour

The default — practice, rooms, food, the shore. True to the light it was taken in.

Golden hour

For heroes and covers — first and last light on the sand, the pool, the pavilion.

Blush overlay

When an image only supports — Blush Coconut, multiply, reduced opacity. The group's overlay method, in Villa Raag's tint.

Never

Cool or blue grading · HDR and heavy filters · posed stock-look wellness shots · cluttered frames · text over faces · black & white (that treatment belongs to the group's editorial portraits, not the sanctuary).

Working files — where the photography lives

07 · PART OF THE KAIRALI FAMILY

The fifth door

The group manual opens four doors — Group, Products, Centres, Healing Village. Villa Raag is the fifth: the group's coastal sanctuary, its leisure register. Where KTAHV reads clinical and physician-led, Villa Raag reads rest — and the two never borrow each other's language.

Ayurvedic Group	Ayurvedic Products	Ayurvedic Centres	Healing Village	Villa Raag
kairali.com	kairaliproducts.com	kairalicentres.com	clinical · Palakkad	villaraag.com · Agonda

Endorsement — three sanctioned arrangements

A · The endorsement line

RECOMMENDED

One Vonca line beneath the lockup, in Gold 600, at the descriptor's tracking. For stationery, signage, brochure covers.

B · The paired lockup

The group's partner geometry — hairline divider, K-width clear space, equal visual weight. For co-hosted events and group media.

C · The written credit

"Villa Raag is part of the Kairali Ayurvedic Group — health through ayurveda since 1908."

No visual co-branding — the credit sits in copy. For guest-facing spaces, social bios, the website footer.

The endorsement never enters the wordmark's clear space, and never appears twice in one piece. Choose one arrangement per application and keep it.

The sea's register

Villa Raag speaks with the group's calm — warm, precise, unhurried — tuned to leisure. Short sentences. Real details over adjectives. The sea does most of the persuading.

We say

"Sanctuary", "practice", "one-on-one" · "programme" for the 7–21-day arcs · named things — Agonda, the pavilion, the saltwater pool · Title Case headings, sentence-case body · the group credit as chapter 07 sets it.

We never

Borrow KTAHV's clinical vocabulary — patient, physician, cure · promise outcomes; we describe practice · shout, exclaim or use emoji · use the group's banned filler: bespoke, curated, discerning, unparalleled, *nestled*, indulge, pamper, exquisite, world-class, unique.

Rewrites — the register at work

INSTEAD OF	SAY
~~Nestled amidst the tranquil beauty of South Goa…~~	On the quiet sands of Agonda Beach…
~~Indulge in a unique, curated wellness journey.~~	A programme built around you, one session at a time.
~~World-class luxury awaits!~~	Six rooms, the pool, and the sea to yourselves.

A caption, for instance

"Low tide, first light. This morning's practice moved to the sand."

Naming the programmes

Joint Revival (14–21 days) · Mind Renewal (7–10) · Metabolic Reset (10–14) — always with their spans, always as programmes, never as treatments.

The sanctuary in hand

Villa Raag prints on the group's stationery programme — same stocks, same weights — foiled in gold rather than the group's finishes. Only personal details change on cards; the layout never does.

VISITING CARD, 9 × 5.5 CM — BLUSH FRONT, FOREST BACK

ITEM	STOCK	WEIGHT	SIZE
Visiting card	Cordenons Wool Ivory · gold foil	250 gsm	9 × 5.5 cm
Letterhead	Cordenons Natural Evolution Ivory	120 gsm	A4 · 21 × 29.7 cm
Envelope	Cordenons Natural Evolution Ivory	145 gsm	closed 22 × 10.8 cm
Guest notecard	Deo Matte · blind emboss emblem	300 gsm	A6 · 10.5 × 14.8 cm

Sanctioned finishes

Gold foiling — the gradient's press form · blind embossing (the emblem) · spot UV · frosted vinyl · 3D signage on forest green or dark wood · jute and fabric printing for retreat kit.

Single-colour renderings

Forest green, ink, or blind/foil finishes — never partial recolourings, exactly as the group rules. In-villa collateral (menus, room folios, spa cards) stays on blush or ivory stock.

The sanctuary on screen

Digital work inherits the group's 2026 foundation — spacing, radii, motion, components and accessibility — recoloured to Villa Raag's anchors. Forest leads action here too.

Favicon & app icons

The emblem alone, centred at 70% of the tile, on blush or forest. Export 16 / 32 / 180 / 512 px. Never the full lockup.

Social · @villaraag

Avatar: a roundel from chapter 03. Posts 1:1 and 4:5, stories 9:16. The lockup sits in a corner with full clear space, or closes the post as an end frame on blush. One gold moment per post; photography per chapter 06; captions per chapter 08.

villaraag.com & booking

Blush and white grounds; Canacona Forest for links, actions and headers; pill buttons, 16 px card radius and calm ease-out motion from the group's component library. The booking flow keeps the same register — no urgency banners, no countdowns.

Email

Single 600 px column on white, lockup 44 px in the header. System fallback: Georgia for both serifs, letterspaced Georgia capitals for Vonca lines. Forest links, pill buttons. Signatures: name in Prata, role in Vonca caps, contacts in Miller, logo 36 px.

Dark surfaces

Canacona Forest only — never black, never gradients of it. The wordmark inverts to white; descriptors and accents use Agonda Gold's light end #DEBC91; body text is blush at 90%. South Goa Tan is never used for text on dark grounds.

Compliant by default

Digital work targets WCAG 2.2 AA, as across the group. The soft palette makes the text rule simple: Forest carries words; gold and tan decorate.

COLOUR PAIRING	CONTRAST	WCAG 2.2	PERMITTED USE
Forest on white	10.1 : 1	AA + AAA	Body text, actions, links — unrestricted
Forest on Blush Coconut	8.9 : 1	AA + AAA	Primary text on brand grounds — unrestricted
White on Forest	10.1 : 1	AA + AAA	Dark surfaces — unrestricted
Gold 600 #8F6D49 on white	4.7 : 1	AA	Overlines, small gold text, endorsement lines
Agonda Gold #B7916B on white	2.9 : 1	Decorative	Artwork and rules only; text steps down to Gold 600
South Goa Tan on white	1.9 : 1	Decorative	Panels, borders, textures — never text

Digital standards

Touch targets ≥ 44 px · visible forest focus ring on every control · honour prefers-reduced-motion · form fields always labelled · icons never carry meaning alone — the group's chapter 10, unchanged.

Print production

Anchors print from the CMYK builds in chapter 04; Agonda Gold prefers foil at press — confirm spot matches on proof. 3 mm bleed on all trimmed pieces. Logo minimums per chapters 02–03. Blush may print as a tinted stock instead of ink.

VILLA RAAG

YOGA SANCTUARY . AGONDA BEACH

"The group's promise, kept by the sea —
health through ayurveda, and the rest to the tide."
